Skills

Enthusiastic software developer with a bachelor's degree in Computer Science and extensive knowledge of Java, C++, C# and web development programming languages.

Experience

Frontend Developer / FootAsylum

JAN 2023 - PRESENT, ROCHDALE

Whilst working at FootAsylum, I have introduced impactful website upgrades & features, as well as fixed many site breaking bugs. Some of my largest & most noteworthy upgrades to the site are the Entertainment Hub (App Only), as well as the complete overhaul of the Product Display Page (PDP).

Junior Developer / PayStream

AUG 2021 - FEB 2022, ALTRINGHAM

At PayStream, I maintained and improved Tifo, a back-office support service. This included creating new features, addressing technical queries, and implementing best coding practices for enhanced efficiency.

Education

Computer Science, BSc, 2:1 / MMU

SEP 2018 - JUL 2021, MANCHESTER

I gained expertise in programming, databases, web development, math, computer architecture, algorithms, networks, AI, and operating systems during my university education. These courses form the bedrock of my computer science knowledge.

I also spearheaded an NDA-protected project for Tyrrell Products Ltd. with 3 other students, translating creative concepts into a polished website. With a keen eye for design, we prioritised user-friendliness and visual appeal. Post-launch, we diligently monitored, maintained, and implemented improvements to ensure optimal website performance.

Awards

Team Leader - NCS

Student Ambassador - Failsworth High School
